

Element Fixed height end and central legs

Element Fixed Height Frame - Desk and Return

Element Tech Height Frame - Corner Workstation

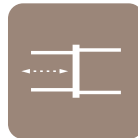

Linear bench system using Element Fixed Height End and Central legs with Telescopic beams

Element C Leg Desking System

The Element steel 'C' leg system allows for maximum strength and space under the worktop. Element Fixed Height delivers an economic workstation solution, providing function and style through sleek and subtle aesthetics. For situations demanding a degree of workstation ergonomics, Element Tech Height provides a range of incremental height adjustment from seated through to bench height.

Exclusive screen suspension and mounting options are available to suit the Element 'C' Leg system.

Available in three standard finishes (Black + White + Silver), Element can also be powder coated to your requirement (POA).
